

# **IntegraSEAL<sup>®</sup>**

Place our  
guaranteed  
"Seal of Integrity"  
over all your  
surfaces

## **Concrete Remedy Top Seal**

*Concrete Remedy Top Seal is a penetrating surface sealer that completely seals and waterproofs most concrete, stamped concrete, brick, stucco, and sandstone surfaces.*

### **Surface Sealant**

Top Seal penetrates approximately 1/16<sup>th</sup> inch into the concrete. Penetration rates vary according to the substrate. Concrete Remedy Deep Seal works internally, and leaves the top 1/16<sup>th</sup> inch clean so that other coatings, adhesives, or penetration sealers will work well.

Top Seal can be used alone, or it can be used in conjunction with Concrete Remedy Deep Seal – an internal densifier and hardener that also waterproofs and reduces vapor transmission.

### **Stamped Concrete and Concrete Overlays**

Top Seal is particularly well suited to **protect stamped concrete**. Often, it is colored. Top Seal will not change the look or color of stamped concrete.

### **Slippery when wet?**

A second big advantage to using Top Seal on stamped concrete is that it does not make the concrete as slick as a surface coating will. **Any time you put on a surface build material that gives a shiny or glossy appearance, you can be sure that surface will be slick when it gets wet.** Safety is a huge issue in commercial settings. Top Seal **avoids dangerous slips and falls** because it is a penetrating sealer and NOT a surface build material.

## **Popular Uses:**

- *Concrete*
- *Brick Structures*
- *All kinds of Tile Floors and Walls*
- *Asphalt Shingles*
- *Sidewalks, Curbs and Gutters*
- *Paving Stone*
- *Patios*
- *Zoo, Barn and Dairy Floors*
- *Garage Pads and Driveways*
- *Service Stations*
- *Pools*
- *Car Wash Stalls*

## **Advantages:**

- *Never any “peeling” or chipping*
- *Maintains a natural appearance*
- *Leaves clear, non-glossy finish*
- *Better traction than surface building  
“glossy” sealants*
- *Safer in business and commercial settings*
- *Will not alter color or texture*
- *Impervious to penetration of grease,  
oils, acids and salts*
- *Controls pitting, rusting, dusting, and molding*
- *Enables easier ice and snow removal*
- *Enables easier clean up of spills*
